Company Overview

Established in 2025, TroxAire is proud to be the first manufacturer in Kenya and East Africa dedicated to the production of HVAC Air Distribution Products, Airflow Control Products, Acoustic Control Products, and Fire & Smoke Protection Products.

With a commitment to engineering excellence, innovation, quality, and customer satisfaction, TroxAire manufactures and supplies high-performance HVAC products for commercial, industrial, healthcare, hospitality, residential, educational, and infrastructure projects throughout East Africa.

Our modern manufacturing facility combines advanced fabrication technology, precision engineering, skilled workmanship, and stringent quality management systems to deliver products that meet internationally recognized HVAC performance and safety standards.

By manufacturing locally, TroxAire provides customers with shorter lead times, dependable product availability, technical expertise, and cost-effective solutions while contributing to regional industrial development.

TroxAire Limited is a Kenyan-owned manufacturer and supplier of premium HVAC airside products headquartered in Nairobi, Kenya.

PERFORMANCE

Mission & Vision

Mission

To design, manufacture, and supply high-performance HVAC products that enhance indoor environmental quality, improve building performance, and deliver sustainable value to customers and stakeholders.

Vision

To become East Africa's most trusted manufacturer and supplier of HVAC airside products by setting new benchmarks in quality, innovation, reliability, and customer satisfaction.

Why Choose us?

First Manufacturer in Kenya & East Africa

Proudly recognized as the first manufacturer in Kenya and East Africa dedicated to HVAC air distribution products, airflow control products, acoustic control products, and fire & smoke protection products.

Local Manufacturing Excellence

Manufactured in Kenya, enabling faster lead times, improved product availability, reduced dependence on imports, and enhanced regional support.

ISO-Certified Manufacturing

Operating under internationally recognized management systems for quality, environmental responsibility, and occupational health and safety.

International Standards Compliance

Products manufactured in accordance with globally recognized HVAC industry standards.

Quality Assurance

Comprehensive quality control processes ensure consistent performance, reliability, and durability.

Custom Manufacturing Capability

Products engineered and manufactured to meet project-specific requirements and architectural designs.

Technical Expertise

Professional engineering support for consultants, contractors, developers, and procurement teams.

MADE IN KENYA

Proudly Manufactured in Kenya

QUALITY ASSURANCE

Stringent quality control at every step

EAST AFRICA FOCUS

Committed to empowering the region

TRUSTED PARTNER

Delivering value through reliability and integrity

Manufacturing ***Facilities & Capabilities***

TroxAire operates a modern manufacturing facility in Nairobi, Kenya, equipped with advanced machinery, precision fabrication equipment, and stringent quality control systems.

- Aluminium Product Manufacturing
- Sheet Metal Fabrication
- Precision Cutting & Assembly
- Product Prototyping
- Custom Product Development
- Quality Inspection & Testing
- Project-Based Manufacturing

The facility is designed to ensure efficient production, consistent quality, and reliable delivery of HVAC products across East Africa.

Manufacturing Standards & Compliance

Air Distribution Products

Designed with reference to **ASHRAE Standard 70** and **Air Diffusion Council (ADC)** performance guidelines.

Volume Control & Non - Return Dampers

Designed with reference to **AMCA 500-D** testing and performance standards.

Louvres

Designed with reference to **AMCA 500-L** performance testing standards

Fire & Smoke Dampers

Designed with reference to applicable **UL standards** and recognized life-safety requirements.

VAV & CAV Terminals

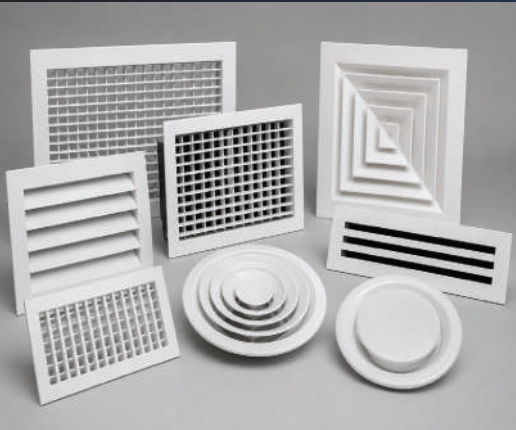

Designed with reference to **AHRI Standard 880** performance requirements.

These industry standards provide the framework for product design, manufacturing, and quality control, supporting reliable performance, product consistency, and alignment with internationally recognized engineering practices

Quality, Health, Safety & Environmental Commitment

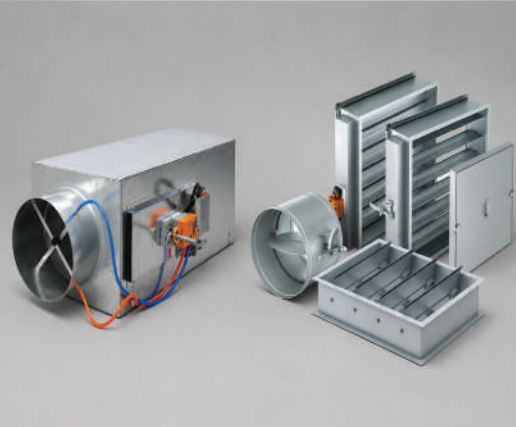

TroxAir Limited operates a fully certified Integrated Management System demonstrating our commitment to quality excellence, environmental responsibility, occupational health and safety, and continual improvement.

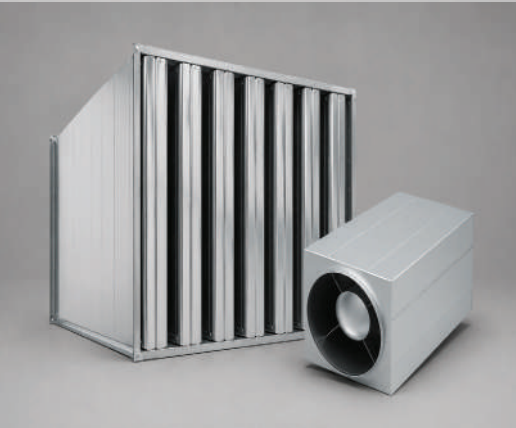

HVAC Air Distribution Products

- GRILLES
- REGISTERS
- LOUVRES
- DIFFUSERS

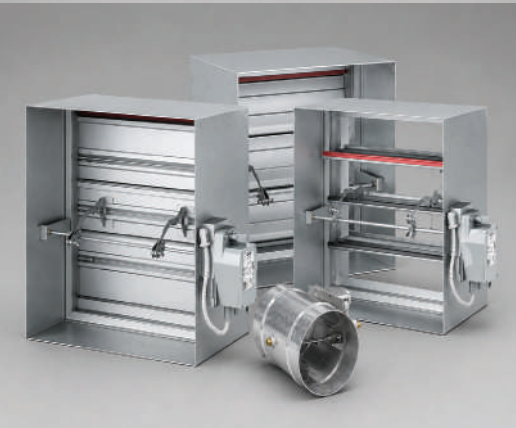

Airflow Control Products

- VARIABLE AIR VOLUME (VAV) TERMINALS
- CONSTANT AIR VOLUME (CAV) TERMINALS
- NON-RETURN DAMPERS
- VOLUME CONTROL DAMPERS

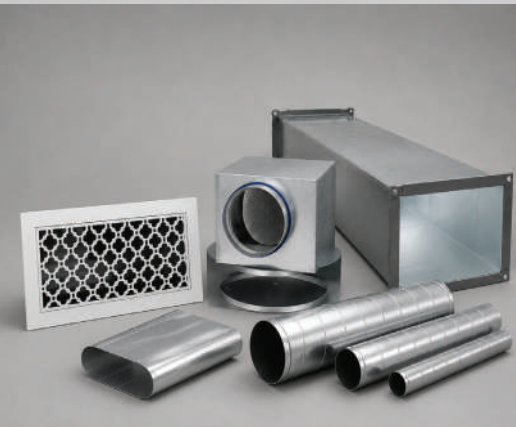

Acoustic Control Products

- SOUND ATTENUATORS
- HVAC SILENCERS
- ACOUSTIC LOUVRES

Fire & Smoke Protection Products

- COMBINATION FIRE & SMOKE DAMPERS
- FIRE DAMPERS
- SMOKE DAMPERS

Accessories & Custom Products

- PLENUM BOXES
- ACCESS DOORS
- DUCTING
- CUSTOM HVAC FABRICATIONS
- PROJECT-SPECIFIC ENGINEERED SOLUTIONS

Manufacturing Excellence

Premium Galvanized Steel Components

Sheet metal products are manufactured using Lock Forming Grade Galvanized Iron (GI) Coils with Z275 zinc coating, providing:

- Enhanced corrosion protection
- Excellent formability
- Superior fabrication quality
- Long-term durability
- Reliable performance

Premium Aluminium Components

All aluminium extrusion profiles utilized in TroxAire products are manufactured from premium-grade 6063-T6 aluminium alloy, ensuring:

- Excellent corrosion resistance
- High structural strength
- Superior surface finish
- Long service life
- Consistent performance

Advanced Manufacturing Processes

TroxAire employs modern manufacturing technologies, precision fabrication processes, and comprehensive quality inspections to ensure every product meets customer expectations and project requirements.

Industries We Serve

TroxAire products are used across a wide range of sectors including:

Commercial Buildings

Corporate Offices

Healthcare Facilities

Hospitals

Hotels & Hospitality Developments

Educational Institutions

Government Buildings

Residential Developments

Shopping Centres & Retail Developments

Industrial Facilities

Airports & Transportation Hubs

Data Centres

Mission-Critical Facilities

Infrastructure Projects

Technical Support

TroxAir provides technical assistance throughout the product selection and procurement process.

Our support includes:

- Product Selection Assistance
- Technical Data Sheets
- Product Catalogues
- Product Drawings
- Technical Submittals
- Compliance Documentation
- Engineering Consultation
- Product Application Guidance

Our engineering team works closely with consultants, contractors, and project stakeholders to ensure the correct selection and application of HVAC products.

Core Strengths

- First Dedicated HVAC Airside Product Manufacturer in East Africa
- Manufacturer and Supplier of HVAC Airside Products
- Premium Quality Raw Materials
- Custom Manufacturing Capability
- Technical Engineering Expertise
- ISO 9001, ISO 14001 & ISO 45001 Certified
- International Standards Compliance
- Modern Manufacturing Facility
- Fast Delivery and Reliable Supply
- Commitment to Quality and Innovation

Core Values

T

Trust

- We build lasting relationships through honesty, transparency, and ethical business practices.

R

Reliability

- We consistently deliver dependable products, services, and solutions that customers can trust.

Ownership

- We take responsibility for our actions, commitments, and results, ensuring excellence in execution.

X

Excellence

- We pursue the highest standards in manufacturing, engineering, quality, and customer service.

A

Accountability

- We are accountable for our performance, safety, quality, and customer satisfaction.

I

Innovation

- We continuously improve our products, technologies, and processes to deliver greater value.

R

Respect

- We treat customers, employees, suppliers, and stakeholders with professionalism, fairness, and dignity.

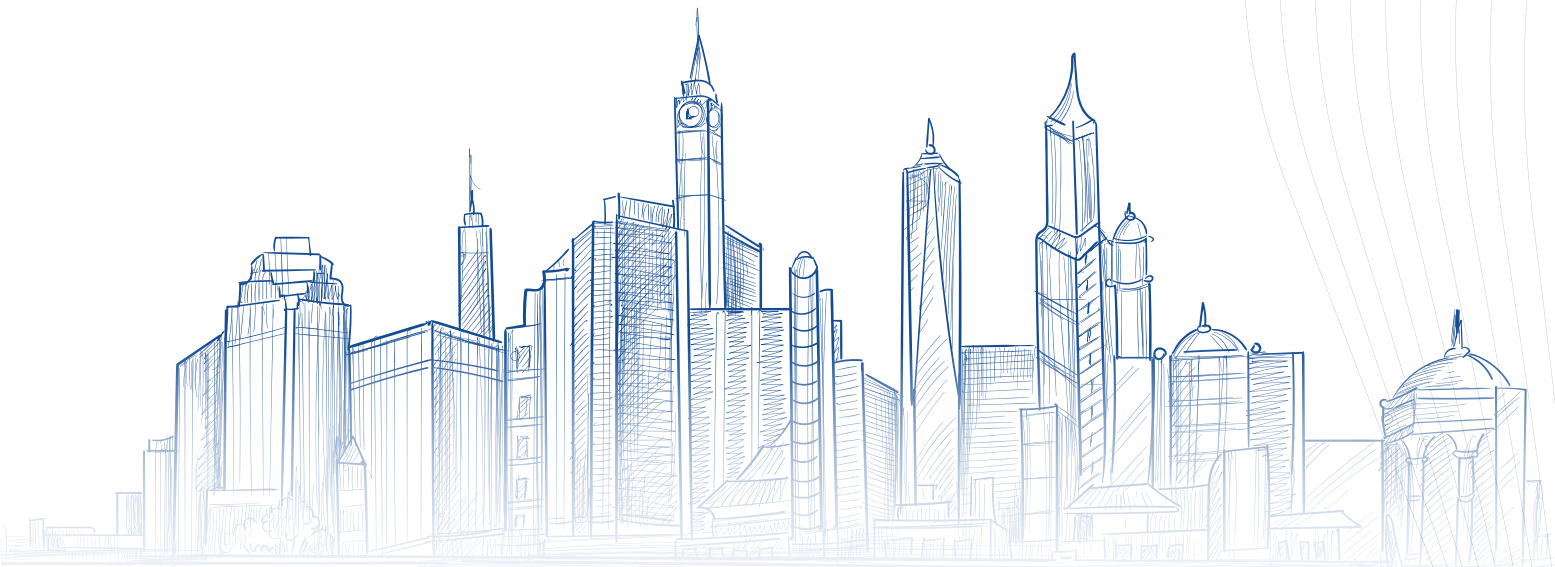

E

Engineering Leadership

- We apply technical expertise, precision, and industry best practices to deliver world-class HVAC solutions.
